

Industrial engineer with 5 years of experience, as data analyst, controlling and manager positions. The most of my experience have been focused to solve problems through data and detecting the problems through **business intelligence models using Qlikview and Power BI**.

I have a background in controlling including cost control, KPI, project control, data science & business intelligence tools as Qlikview and Power Bi.

I am an honest, reliable, quick learner, proactive and hardworking person who likes to challenge myself both personally and professionally. I always look for ways to add value to my organization.

Work History

2019-12 - present	Senior Data Analyst - First Line Engineer <i>ATMS Technology, Reñaca, Chile</i> ATMS is a company based in England with a data analysis office in Chile.
